

EDUCATION

University of California, Berkeley

Berkeley, CA

Bachelors in Computer Science; GPA: 3.88; Technical GPA: 3.92

Jun 2020 – May 2024

Organizations: CSUA (CS Club Executive Officer), CSM (CS 61A/B/70/88 Tutor), CS Honor Society Officer

Coursework: Data Structures & Algorithms, Discrete Math & Probability Theory, Machine Structures & Computer Architecture, Functional Programming & Interpreters, Designing Information Systems & Linear Algebra, Multivariable Calculus, Computer Security, Data Science, Machine Learning, Operating Systems

EXPERIENCE

• Arrowstreet Capital

Boston, MA

Quantitative Research Developer Intern

Jun 2022 - Aug 2022

- Wrote distributed ML algorithms to discover hidden signals for equity alpha research using ~100,000 vendor filings. Automated confidential regression technologies to improve forecast production

• University of California, Berkeley

Berkeley, CA

Teaching: Head TA, Tutor, Reader; Research Assistant

Jan 2021 - Aug 2022

- **Head Teaching Assistant - CS C100: Data Science and Machine Learning:** Managed admin logistics for ~300 students related to the EdStem communication platform, assignment extensions (automated using Gradescope API), Incomplete Student assignment linkages and DSP communications, held OH and taught section
- **Lead Teaching Assistant - EECS 122: Communication Networking/Internet:** Managed all administrative course logistics, created all existing course content, held office hours and taught a section on-campus
- **Reader, Academic Student Employee:** Graded (and wrote) exams on Data Structures (Lists/HashMaps/Heaps/Trees/etc) & Discrete Math (Logic, Crypto, Markov Chains, etc) & held Office Hours for 800+ students
- **Instructor for DeCal on Algorithms:** Content includes Sliding Window, Greedy, DP, Graphs, BinSearch
- **Research - Artificial Intelligence:** Research in Artificial Intelligence on Human-Computer in User Experience and Natural Language Processing algorithms (with 1000+ training examples) for behavioral experiments

• Steamworks Princeton

Princeton, NJ

Software Intern

Jun 2019 - Aug 2020

- Built Robotics Programming applications using Java frameworks for groups of 30+ minority students

AWARDS

- **Donald M. Rizzo Memorial Scholarship Recipient:** Awarded from international NPO: Lions Club International
- **Winner of the Congressional App Challenge:** Invited to Capitol Hill to demo mobile app to House of Representative members at #HouseOfCode, the most prestigious student STEM expo, at the U.S. Capitol Building
- **The President's Volunteer Service Award: Gold:** Honored with the highest achievement for going beyond in community service work. Tutored URM's and USAMO qualifiers through STEP For a Better World
- **Capture The Flag Cybersecurity Competitions:** Ranked between top 5 to top 50 at all of {PicoCTF, HSCTF, BRACTF, CSAW Red}: Security Competitions with challenges from programming questions to hacking into servers

PROJECTS

- **RiskWatch:** Developed React.js Application for Chubb; winner of PennApps 18, using AWS Rekognition to classify safety hazards from a Raspberry Pi camera. Top 10 project addressing risk/disaster by UPenn's Wharton Risk Center
- **KleanGums:** Analyzed health of user's gums from CNN trained via open-source Kaggle dataset with $\geq 60\%$ accuracy. Featured on the Google Play Store. Presented at Kean University, was awarded 2nd place for research efforts
- **SouthMaps:** Led team of 10+ developers, designed app for easy navigation, helped students get to the next class with the shortest possible walkable path (implemented Dijkstra's SPT Algorithm and GPS services)
- **Class Reveal:** Team Leader of crowd-sourced site for students to view classmates. Accelerated 180% increase in user base (from 2100+ users in 2018 to 3800+ users in 2020) with predictive features model

SKILLS

- **Languages:** Python, Java, C, Rust, SQL, HTML/CSS, JavaScript, PHP, Dart, GoLang, Assembly, Lisp, and C#
- **Technologies:** NumPy, Pandas, Scikit-learn, Matplotlib, PyTorch, Flask, Git, RegEx, L^AT_EX, React, Microsoft Azure
